

# CEDAR SHAKE

Weathered

**BRAVA'S** Cedar Shake offers the rustic charm of an authentic hand-split cedar shake roof, in a maintenance-free synthetic material. The charm and beauty of a natural hand-split cedar shake roof has long been limited by its inability to stand the test of time against Mother Nature. With BRAVA'S Cedar Shake product, you can now have the beautiful look of a cedar shake roof you've always desired without any of the maintenance.

- > **AUTHENTIC LOOK** – BRAVA's products are the end result of a painstakingly detailed engineering process undertaken by the Design Team at BRAVA Roof Tile, the goal of which was to create a synthetic roof tile so authentic in its look that no one could tell the difference when placed side-by-side with its natural counterparts – even up close.
- > **LONG-LASTING PERFORMANCE** – backed by a 50-year limited warranty, BRAVA is designed to withstand even the most severe weather, boasting a Class 4 impact resistance rating (the highest hail performance certification recognized in the industry), Miami Dade approval, wind protection in excess of 110 MPH and either Class C or Class A fire rating.
- > **ENHANCED CURB APPEAL** – the curb appeal of a property directly correlates with owner satisfaction and higher property value, and few features can add to curb appeal like the aesthetics of a gorgeous cedar shake roof.
- > **EASE OF INSTALL** – at only 355 pounds per square, BRAVA Cedar Shake allows for easy installation without the need for costly structural modifications or special installation techniques.
- > **COLOR TECHNOLOGY** – BRAVA'S proprietary multi-coloring process means you get the authentic appearance of a natural product, complete with variegated colors throughout the entire product. Thanks to its patent-protected coloration process, BRAVA turns any color you can imagine into a reality for your custom roof – with the help of BRAVA's Design Team, the possibilities are truly limitless.
- > **DURABLE** – BRAVA's proprietary formulation ensures virtually no breakage. This extreme durability surpasses that of its natural counterparts, as well as other synthetics, where breakage in shipping and installation can be a very costly concern.
- > **ENVIRONMENTALLY FRIENDLY** – Made in the USA, BRAVA uses recycled material to create a beautiful and durable roof that itself is fully recyclable.
- > **COMPLETE** – BRAVA's full line of accessory tiles (including Solids for valleys and gables) make it the most complete and authentic synthetic roof system on the market.

Beauty, long-lasting performance and total peace of mind highlight the benefits of BRAVA Roof Tile.
